MIND YOUR BUSINESS

Why would George W Bush spend billions of dollars fighting a war against Iraq in the name of terrorism but neglect to protect Americans against terrorism in the form of drugs sneaking across its borders by the tons? Don't we have satellites to prevent nuclear bombs from reaching American soil? Then why can't we use this same technology to stop the tons of drugs from entering into this country and finding its way into the inner cities throughout America? When will George Bush learn to MIND HIS BUSINESS and that is America!

What does it take to realize drugs are the source of all the problems taking place in crime infested communities across America? Drugs to a great degree lead to escalation in murders, robberies, prostitution and an even higher percentage of men and women being incarcerated at alarming rates. Murders are committed because drug lords are trying to protect their territories from other drug lords. Robberies are committed by addicts needing money to buy drugs. Prostitutes are selling their bodies and exposing 'johns' and themselves alike to staggering cases of HIV which is destroying the American population by the millions.

BAPTISM BY FIRE Part I Empire is a resource novel of fiction that gives a thorough depiction of how neglecting the shores of North America is aiding in the destruction of the American dream that George Bush says he is trying to prevent by sending our troops to Iraq to mind their business, while neglecting our own. Baptism By Fire is a unique book that shows the problem at a grassroots level. The reader will see how an individual's problem can create a problem for an entire country.

Michael Stanton is the author of BAPTISM BY FIRE and he has once played in the game of street survival. He was able to see how his role in the streets was destroying the American community and it is through his expertise of the streets that he is giving anyone one who wants to know an up close and personal look at the problem taking place on American soil.

BAPTISM BY FIRE comes with a MONEY BACK GUARANTEE and can be ordered from Starchild Publishing, PO Box 6068, Newark NJ 07106, from your local bookstore or from the website for only \$15.95 plus \$3 shipping and handling. Free shipping and handling for all orders shipped to correctional facilities.
